

COVID-19 Information

Update: April 19, 2022

As a result of a court order, the Centers for Disease Control and Prevention's (CDC) January 29, 2021 [Order](#) requiring masks on public transportation conveyances and at transportation hubs is no longer in effect. Therefore, CDC will not enforce the Order. CDC continues to recommend that people wear masks in indoor public transportation settings at this time.

In light of this ruling and latest TSA guidance, HARTransit continues to recommend masking on its buses, especially noting an increase in positive COVID tests statewide, but will not enforce the masking rule. This update is subject to additional clarification or change.

Reminder, the state-wide Weekend Wheels Fare-Free bus service runs through the Labor Day holiday weekend.

Beginning September 7, regular fares resume on buses on weekends and holidays.

We are aware of the CDC's recent guidance as it relates to indoor face covering regulations for fully vaccinated individuals.

However, at this time, the guidelines for public transportation remain unchanged:

“On April 30, the Transportation Security Administration (TSA) extended the face mask requirement for all transportation networks, including public transportation, through September 13, 2021.”

If you need a mask, we offer them free at the Pulse Point Ticket Window and at our administration office.

We appreciate your continued support in keeping our passengers and staff safe.

PLEASE NOTE: Federal law requires wearing of face masks completely covering the nose and mouth when using public transportation.

NEED A MASK? JUST ASK!

If you need a mask - we have them to give out free to passengers at the Pulse Point ticket window or at our administration office at 62 Federal Road.

UPDATE MONDAY 12/14/2020

Now that fare collection has resumed, please board the bus using the front door, and exit the bus using the rear door.
